

Ash Keys Aromatherapy

A bit about me and Ashkeys.com

My name is Suzanne Clark and I have a background in scientific research but have always had a personal interest in using good quality aromatherapy body care products. My decision to start making my own aromatherapy products was born out of frustration at not being able to find reasonably priced toiletries that were both effective and fragrant. Initial trials with friends and family were extremely successful and so I have been encouraged to launch Ashkeys.com. My main supplier of cosmetic bases, essential oils and other ingredients is Freshfields Aromatherapy where both David and George have been extremely helpful, providing me with excellent advice and their top quality ingredients which are an inspiration in themselves.

Ash Keys products are manufactured by blending high quality bases with a selection of carrier oils and aromatherapy oils to produce a range of products developed to give both sensual pleasure and a benefit to your skin. Presented in smart blue glass or plastic containers to provide an elegant addition to your dressing table and bathroom.
